OYSTERS LINDISFARNE 'PACIFIC ROCK'S'

'Our oysters are farmed in Lindisfarne, Northumberland; one of the most sought after oyster farms in the UK. They go through a strict purification process before they are sent to us, ensuring the purest & cleanest tasting oyster possible.

We only ever shuck our oysters moments before serving.

Served simply to enjoy maximum flavour; over crushed ice with lemon, shallot and raspberry vinegar.'

What's the Catch?

Catch Seafood is a modern day fish & seafood restaurant built on family values. We're passionate about seafood & take pride in sourcing only the freshest & highest quality fish from UK ports.

The Catch story started way back in 1919 when 'Old Granny' Roberts started the Roberts family fish business. 'Business' probably wasn't the word that came to Granny's mind as she sold kippers from her front parlour window in Hartlepool. Little did she know at the time, she was starting something much bigger.

"Roberts Fish and Chips had become the best known in the area. By 1967, William and Arthur had opened a purpose built restaurant & takeaway."

We have built on the values that served 'Old Granny' Roberts & will continue to source the freshest seafood on a daily basis & serve it to the highest standards.

"It started with a fish."

Our Fish

MSC Haddock – Our Haddock is caught on the Fishing Vessel 'Viking'
MSC Cod – Our Cod is caught on the Fishing Vessel 'Korund'
Both ships operate in the icy waters of the North East Atlantic.

What is the Marine Stewardship Council (MSC)?

The sustainability of a fishery is an ongoing process. After they are MSC certified, fisheries are regularly reassessed & many are required to make further improvements. Scientific knowledge also improves all the time & fisheries are encouraged to develop new ways of conserving marine resources for future generations.

Our Chips

We prepare Sagitta potatoes fresh daily in our prep kitchen. This way we ensure our chips taste as they should.
